ATTN: Maritime Lloyd Authorized Surveyors

25.12.2016

Action Plan for Year 2016.

Dear All,

Examination and Testing program will be continued with HO and Field Surveyors including evaluation of understanding of proper implementation of the Regulations in force. Annually the VCA will be conducted with the field surveyors and will be evaluated by in accordance with the Audit Plan and positive results of the VCA at the field.

HO will continue to require from Authorized surveyors to present annually the updated data for any training courses passed by the each Authorized surveyor.

HO will continue to inform all field staff of all requirements, which are coming into force by corresponding Circulars; the proof of understanding of requirements has to be proved by appropriate written confirmation. Corresponding data also will be available at ML official web. Site.

The past year showed good dynamic of detention rate decrease. In accordance with PARISMOU, BSMOU RO performance list within 3 years, Maritime Lloyd occupies the strong position at Medium Level.

Maritime Lloyd has fixed in its Quality Policy the goal to decrease the detention rate previous Year as minimum for 1 %, 2014 Year showed the percentage of the detention decrease as 2%, Year 2015 decrease of detention rate is 3.66% . This rate is intended to be kept during this Year. The HO and field surveyors are encouraged to use more effectively preventive actions to minimize the risk of detentions.

New entries in the Year 2015 reached 12 new vessels.

HO is planning to keep this level for the 2016 Year.

All surveyors are encouraged to promote from your side accordingly.

Vessels which past MLC 2006 surveys have to be followed continuously to avoid any detention for the related items, as PSC will follow cases more strictly this Year.

Maritime Lloyd's Head Office presents all attending surveyors our great respect for your intensive job.

We remain at your service.

Yours sincerely,

Ellen Rukhadze

Chief Executive Officer

Maritime Lloyd
